

Travel Risk Safety and Security

GAP YEAR - SAFE TRAVEL TRAINING

Gap Year Safety Training

Gap years should be all about positive experiences, adventures, travel and fun. But all too often they end in crisis or tragedy. The world can be a wonderful place, but also a dangerous one.

In some regions kidnapping for ransom, sex, or some other form of extortion is common, in others terrorism or militia attacks are high. Sex offences, drug inducement, sophisticated scams and identity theft are common in many overseas destinations, and virtual Kidnappings, cyber blackmail and romance scams are increasing.

This doesn't mean risk outweighs reward and you shouldn't go - but it does mean understanding the risks, preparing appropriately to avoid them and knowing what to do if things go bad.

Our half day Gap Year Safety session is the most unique, cost effective, and convenient solution to ensure you are best prepared.

It is delivered by one of our expert Kidnap and Hostile Environment Travel Consultants who comes to you at your school, campus, office, club venue, home or wherever suits at any time.

It is deliberately not sensationalised, but instead provides very practical simple safe steps to mitigate your risk overseas.

It is suitable for any age and can be tailored to suit a specific region or risk.

It is also tailored and popular with older adventuring Nomads

The program is infused with the latest risk information on popular gap year destinations from our in-house Intelligence analysts.

Subject covered include:

- Pre travel preparation and research
- Psychological preparation
- Preparing and managing loved ones
- Understanding the Risks
- Risk mitigation
- Clothing and luggage considerations
- Safety and security items
- Airports and accommodation
- Travel on the roads
- Civil unrest
- Conflict management
- Official and unofficial detentions
- Drugs and sex crimes
- Street crime, corruption and scams
- Social media and cyber security
- Terrorism and militia risk mitigation
- IEDs and Blast safety
- Active shooter risk mitigation
- Kidnap risks - types, and phases
- Hostage survival
- In- country Crisis Management
- In-country support
- How family back home can support a crisis
- Staying current with risk changes
- Communications
- Emergency First Aid tips

The program is crucially informative, but relaxed, informal and even fun. Building confidence and resilience so travellers are better prepared to enjoy their experiences, and families are better prepared to worry less. The program is useful for parents or loved ones too.

Cost per person \$195 (minimum of five) excludes GST. Discounts on more than twenty persons.
